CONFIDENTIAL

13 NOV 1970

MEMORANDUM FOR: Information Processing Coordinator/DDS

SUBJECT : Guidance for the Security Analysis,
Test and Evaluation of Resource-
Sharing Computer Systems

1. The USIB Computer Security Subcommittee has been given the task to develop guidelines for the security analysis, test and evaluation of resource-sharing computer systems. In order to obtain beneficial input from all possible sources, the attached draft of these guidelines is being widely distributed throughout the CIA and other USIB member agencies.

2. It is requested that appropriate members of your staff review and submit written comments on this draft to the under-signed no later than 18 November 1970. The short deadline for this task is required in order to present coordinated CIA comments at the 20 November 1970 meeting of the Computer Security Subcommittee.
